

RGS 60

Cable tray, heavy, perforated, height=60 mm

Cable tray, heavy, perforated, head shape suitable for positive locking covers, with longitudinal and lateral reinforcing rims reducing bottom deflection, certified including electrical conductivity according to DIN EN 61537. Side and bottom connectors are provided for assembly. Cable load as standard support construction max. 10 kg/m with 1.2 m support spacing. The product can be used for fire protection. For technical parameters, see National Technical Test Certificates (abPs).
